

My Dobi Shop User Manual

Hello, welcome to My Dobi Shop!

Do you already registered as our member? If yes, we are happy to tell that you are eligible to get until **20% discount** for any transaction in our shop!

What are you waiting for? Come register as our member now!

How to make an order for washing in our shop?

1. Price list will appear on the screen. You can read and take a look for our service provided. There will a difference price for member and non-member.
2. Below the list, there will be a question that asking you whether you are member or no. If you already registered as a member insert "yes" the make our program seted and ready to give you 20% discount.
3. Then, there will be another question that asking for you to choose the type of washing program that you want to apply. You can choose :
 - Wash & Fold
 - Garment Cleaning
 - Curtain & Household

Caution!!

Please make sure only insert the number for that type selection. Inserting any character will make the system broke.

4. After doing your program selection, you need to input the amount that you want to wash for every type. If type provided does not in your wishlist to wash, you simply just put "0". For this session, you can only insert *integer type* input. (eg : 1, 2, 3 & etc.)

Caution!!

Inserting any character for the fabric amount will cause an error the system. It will make your transaction failed.

5. When you already finish make the order, our system will automatically ask whether you want to add cloth to other washing program. If you wish to add, then press "yes". If no, then press "no".

Attention!

We recommend you to only add for other **washing program** from your previous selected program. If you want to add the amount for the previous cloth type, kindly cancel your transaction or another order.

6. If you answered the previous question with “no”, then receipt will appear on the screen. You can check if there any problems on your transaction.
7. Kindly see our staff if any problems occur in your transaction or you any assist.
8. You get the your receipt at the counter after completing your payment.

Thank you! 😊

Member 1

This statement will always appear when ever user open the console. It will show under the price list table.

This question that asking the user whether they are member or non – member.

This portion is to consider whether user can get 20% discount or no.

Here user can make their choice on what type of washing they want.

Also always appear in this console under the **member** or **non – member** question.

This is the receipt for the user reference. Receipt will only show any type that user placed a value. By the way, if user insert “no” on the question above the receipt, system will not provide receipt yet. The receipt is actually the line mark for user and system that tells the transaction is already done.

Example 2

```
Attention!!!
To all our beloved customers, please enter all your input with small capital letters to avoid error into the system.
Please put a value of zero if you don't want to use any specific service.
Thank you -_^.

Are you a member? Please type "yes" or "no"
Input : no
You are not eligible for 20% discount

What wash program do you want to use? Please choose one of the below.(Please enter the number as the input)
1. Wash & Fold
2. Garment Cleaning
3. Curtains & Household
Input : 1

How many kg of clothing do you want? Min clothing weight is 4 kg.
Input : 4

How many kg of bed linen or towel do you want? Min is 2 kg.
Input : 2

How many blanket, comforter or duvet for single size do you want?
Input : 0

How many blanket, comforter or duvet for queen size do you want?
Input : 0

Do you want to add cloth for other wash program. Please type "yes" or "no"
Input :

Do you want to add cloth for other wash program. Please type "yes" or "no"
Input : no
```

MyDobi Receipt.			
Type : Not Member			
Item	Service	Quantity	Price
1	Wash & Fold -Clothing	4 kg	RM 24.00
2	Wash & Fold -Bed Linen / Towels	2 kg	RM 10.00
Sales & Service Tax (6%)			RM 2.52
Total (Rounding)			RM 44.52

Non - Member 1

Here is the example for how the console will look like if the user is **non – member**. There's no too much difference compared to the previous example which is for **member** user.

The difference here is only for **non – member** there will be a statement printed that tell they are not eligible to get our discount offer.

*The arrow shows where the statement will be printed out.

Example 3

```
Do you want to add cloth for other wash program. Please type "yes" or "no"
Input : yes

What wash program do you want to use? Please choose one of the below.(Please enter the number as the input)
1. Wash & Fold
2. Garment Cleaning
3. Curtains & Household
Input : _
```

This is the example for a case that user when to add another cloth on another washing types.

- User need to choose what type they want to add. The next step will the same like on the previous examples. If they wish to stop the programme after finish making their order, user need to answer “no” on the question.
- This path is also can be used in case user forget to add or want to update any amount for certain type of cloth on the previous type of washing program that they already choose before.
 - By the way, we are not suggest user to use that way.
Because :
 - The last amount submitted to the system will only kept inside the system’s memory (Only for the same type of cloth in the same type of washing program).
 - Wrong input into the console will overcome an error or damage to the system.

*The arrow is showing which question the was mentioned before.
